Invitation to a town hall meeting on Dynamic Ocean Management

When: Monday, February 12, 12:45 PM - 1:45 PM

Dear Colleagues,

We're convening a community town hall meeting on dynamic ocean management at the Ocean Science Meeting in Portland. **We would love to have you join us at this meeting.**

The intent of the town hall is to initiate dialogue and conversations among the ocean science community of managers, scientists, industry and resource users, and policy makers to discuss opportunities, challenges and potential solutions to adoption and implementation of dynamic ocean management. The town hall will also feature current and in-development dynamic ocean management applications.

A flyer/invite is attached with RSVP details. Please share and don't hesitate if you have any questions. Hope to see you there!
